

<i>Name</i>	<i>Division</i>	<i>Title</i>	<i>Project Period</i>
Collaborative Challenge Not awarded			Collaborative Challenge - Fall 2016. Not awarded.
Dylan Steen, MD, MS	Cardiovascular Health and Disease	SUPERmarket and Web-based Intervention Targeting Nutrition for Cardiovascular Risk Reduction (SuperWIN)	Jr. Faculty Pilot Project Award Fall 2016
Silvi Shah, MD	Nephrology, Kidney CARE Program	Racial and Gender Disparities in Pre-dialysis Health Status and Dialysis Outcomes	Jr. Faculty Pilot Project Award Fall 2016
Phillip Owens, PhD	Cardiovascular Health and Disease	The Role of apoE receptor-2 (apoER2/LRP8) in Abdominal Aortic Aneurysm	Jr. Faculty Pilot Project Award Fall 2016
Moises Huaman, MD, MSc	Infectious Diseases	Coronary Atherosclerosis and Immune Activation in HIV and Latent TB Co-infection	Jr. Faculty Pilot Project Award Fall 2016
Phillip Owens, PhD	Cardiovascular Health and Disease	LDL-bound fibrinogen as a novel biomarker in abdominal aortic aneurysm to detect expansion and rupture	Rehn Family Research Award - Spring 2016
Laura Conforti, PhD	Nephrology, Kidney CARE Program	Elucidating the effect and importance of the adaptive immune system in head and neck cancer patients before and after treatment with PD-1 inhibition combined with chemotherapy and radiation	Senior Faculty Pilot Project Award - Spring 2016

George Smulian, MD	Infectious Diseases	Request	Senior Faculty Pilot Project Award-Spring 2016
Kenneth Sherman, MD, PhD	Digestive Diseases	Zika Virus Diagnostic and Virologic Capability Enhancement	Distinguished Research Achievement Award-Spring 2016
Muhammad Zafar, MD	Pulmonary, Critical Care & Sleep Medicine	Novel Device to Improve Exercise Tolerance in Central Airway Collapse Patients	Junior Faculty Pilot Project Award- Fall 2017
Kavitha Subramanian, PhD	Infectious Diseases	Metallothionein 3 shapes activation of the NLRP3 inflammasome in macrophages," will be funded in the amount of \$30,000	Junior Faculty Pilot Project Award- Fall 2017
Melanie Cushion, PhD	Infectious Diseases	Synthesis and validation of a myo-inositol reporter for HTS of anti-PCP agents	Collaborative Challenge - Fall 2017
Deeptankar DeMazumder, MD, PhD	Cardiovascular Health and Disease	Critical Health Assessment and Outcomes Study (CHAOS)	Rehn Family Research Award - Spring 2017
Shailendra Patel, BM, ChB, Dphil	Endocrinology, Diabetes & Metabolism	The Role of Abcg4 in Alzheimer's Disease Pathogenesis	Senior Faculty Pilot Project Award-Spring 2017

Jane Yu, PhD	Pulmonary, Critical Care & Sleep Medicine	Targeting estrogen-promoted extracellular matrix-degrading programs in LAM	Senior Faculty Pilot Project Award - Spring 2017
Francis McCormack, MD	Pulmonary, Critical Care & Sleep Medicine	Molecular mechanisms of osteoclastic transformation of alveolar macrophages	Distinguished Research Achievement Award - Spring 17
David Bernstein, MD	Immunology, Allergy and Rheumatology	Genetic Regulation of Diisocyanate Induced Occupational Asthma	Senior Faculty Pilot Grant Award - Spring 2018
Robert Cohen, MD	Endocrinology, Diabetes & Metabolism	A Paradigm Shift: HbS1c and HbA1c to Measure RBC Turnover in Sickle Cell Disease	Senior Faculty Pilot Grant Award - Spring 2018
Rehn Research Family Award	No application was funded for Spring 2018		
Distinguished Award	No qualified applications were received for Spring 2018		
Ashley Jenkins, MD	General Internal Medicine	Interdisciplinary Communication Enhancement (ICE): Using Group Level Assessment to Guide Healthcare System Improvement	DOIM Quality Improvement Award
